# Qhawe Moyo

Website • (084) 447-0996 • linkedin.com/in/qhawe

Software developer with a strong background in application development, performance optimization, and adaptable delivery across changing requirements. Collaborative team player proficient in multiple programming languages and version control systems, with relevant certifications completed.

## Core Competencies

Full-Stack Software Development • RESTful API Design & Integration • Laravel • PHP • ASP.NET Core • React • Android/Kotlin Development • Cloud Computing • Cybersecurity & Firewall Implementation • Database Management • Learning Management Systems (LMS) • Agile Team Collaboration • Technical Training & Facilitation • Stakeholder & Client Management • Technical Documentation • Java • JavaScript • HTML • CSS

## Experience

FEB 2026 – PRESENT

**Facilitator & Software Developer | World Wide Industrial & Systems Engineers | Johannesburg, Gauteng & Upington, Northern Cape**

Facilitate a large class of learners on a software development qualification, and previously facilitated foundational certification training in AWS Cloud Practitioner and Microsoft Cybersecurity, designing practical exercises that reinforce understanding and prepare learners for the workplace. Built the WWISE Proctor system and tested the WWISE Learning Management System (LMS) to expand the organisation's online learning capacity. Built the demo functionality to try before you buy any course on the academy. Revamped the UI & improved UX. Created the social media carousel for sub-company GTICS, integrating multiple platform APIs to pull and display social media posts. Built code for certificate creation and verification from a business standpoint to reinforce integrity.

AUG 2025 – DEC 2025

**Software Developer | Hawk Mobile | Durban, KwaZulu-Natal**

Contributed to the development and maintenance of mobile and web solutions for Pedro’s Chicken, focusing on clearing an extensive request backlog. Built, maintained, and enhanced back-end APIs and server-side logic using Laravel, and troubleshot, debugged, and upgraded existing codebases. Played a key role in developing Pedro’s eLearning Android app used across franchise and corporate stores, along with a CMS web platform that enables internal users to manage training modules, activities, and assessments through a synchronized database. Revamped internal applications by introducing new workflows for the audit and finance teams, and developed RESTful API solutions to track guest counts, performance averages, item costs, and profitability across stores.

JAN 2025 – JUL 2025

**Intern | KZN Office of the Premier | Durban, KwaZulu-Natal**

During my internship, I provided hands-on support across a range of administrative and technical functions. My responsibilities included resolving day-to-day tech issues, assisting staff with the adoption and use of new digital systems, and offering general administrative support to ensure smooth office operations. I contributed to research initiatives, helping compile and organize information to support policy and program development. This role allowed me to gain valuable experience in a dynamic government environment, build strong problem-solving skills, and support the implementation of digital tools to improve workplace efficiency.

APR 2021 – DEC 2024

**Software Developer | L&M Media Group | Durban, KwaZulu-Natal**

Designed and developed web and mobile solutions to meet client requirements, strengthening my full-stack development and debugging skills. Resolved hardware and software issues with a 95% success rate within 24 hours, improving system reliability and support efficiency. Enhanced the company's cybersecurity by implementing firewalls and encryption protocols, reducing vulnerabilities by 30%. Collaborated with a team of five developers under tight deadlines, further developing my teamwork, communication, and time management skills. Provided client training on application usage, increasing user adoption by 25%.

JUN 2019 – JAN 2021

**Software Developer | Freelancer**

Delivered custom web and mobile solutions for multiple clients, managing projects end-to-end from requirements gathering through deployment and maintenance. Built full-stack applications tailored to client needs, handled ongoing support and bug fixes, and communicated directly with stakeholders to ensure timely delivery. This strengthened my ability to work independently, manage deadlines, and translate business requirements into technical solutions.

## Technical Skills

Programming Languages: Python, Java, C#, C++, JavaScript, Kotlin, HTML, CSS, PHP

Frameworks & Libraries: ASP.NET Core, UI5, React, Angular, Bootstrap, TensorFlow

Tools & Platforms: Azure, Android Studio, SQL, MS SQL Server, T-SQL, Node.js, Linux, Elementor, Squarespace

AI & Data:Cloud Computing, Deep Learning, Machine Learning

## Education

FEB 2021 - NOV 2023

**Diploma in ICT: Applications Development | Durban University of Technology | NQF Level 6**

Majoring in: Information Systems and Applications Development

- 73.8% Average
- 15 Distinctions
- Class representative

FEB 2024 - NOV 2024

**Advanced Diploma in ICT: Applications Development | Durban University of Technology | NQF Level 7**

Electives in: Graphics and Machine Learning

- Highest Graphics Project Award
- Class representative
